

Premier Construction and Development Group Joins U.S. Green Building Council

DUBLIN, GA - March 25, 2009 –Premier Construction and Development Group joined the U.S. Green Building Council (USGBC), which is the nation’s foremost non-profit organization composed of leaders from across the building industry working to advance buildings that are environmentally responsible, profitable and healthy places to live and work.

The USGBC is dedicated to expanding green building practices and education. The organization's LEED® (Leadership in Energy and Environmental Design) Green Building Rating System™ encourages and accelerates global adoption of sustainable green building and development practices through the creation and implementation of universally understood and accepted tools and performance criteria.

Phil Best, Sr., owner and CEO of Premier Construction and Development Group said, “We are excited about the opportunities our affiliation with USGBC will afford our company and the clients we serve. Our senior partner Louie Curry has been very committed to this effort and has encouraged us to become active in the council for more than a year now. Three of our construction managers, Phil Best, Jr., Kevin Bass and Chris Davis have made a commitment to continue their education in the LEED program which will be good for not only the clients we serve but our world.”

USGBC is most widely recognized for its professional accreditation and certification program Leadership in Energy and Environmental Design (LEED) Green Building Rating System. LEED promotes a whole-building approach to sustainability by recognizing performance in six key areas of human and environmental health: sustainable site development, water efficiency, energy efficiency, atmosphere, materials and resources, and indoor environmental quality.

Premier Construction and Development is also a member of the Associated General Contractors of America (AGC) which is the largest and oldest national construction trade association in the United States.
